SUMMARY

Economics student with hands-on experience in financial analysis, company valuation, credit analysis, and process automation using Python and AI. Proficient in Bloomberg Terminal, Capital IQ, and Refinitiv for market data and equity research, with working knowledge of SQL, VBA, and Power BI for data analysis and reporting. Conducted independent analysis of publicly traded companies across mining, defence, and energy sectors. Completed an academic exchange at Insper (São Paulo), focusing on Latin American financial markets, M&A, and corporate finance. Committed to building a long-term career in Brazil, with the goal of establishing permanent professional roots in the country and contributing to its financial markets from within, rather than a short-term rotation. Seeking opportunities in investment banking, equity research, or credit analysis roles where technology and capital markets converge.

SKILLS

Financial Tools: Bloomberg Terminal, Capital IQ, Refinitiv, Microsoft Excel (Advanced), Power BI, Power Query

Financial Skills: DCF Valuation, Three-Statement Modeling, LBO Modeling, Precedent Transactions, Accretion/Dilution Analysis, Comparable Company Analysis, Credit Analysis, Equity Research, Due Diligence

Technical: Python (Entry Level), SQL, VBA/Macros, Git/GitHub, API Integration, Process Automation, Data Collection

Languages: Spanish (Native), Galician (Native), English (C1), Portuguese (C1)

WORK EXPERIENCE

Innovation Department Intern | Weber Pharmacoeconomics Consulting

Madrid, Spain | Feb 2025 - Jun 2025

- Applied Bloomberg Terminal and Capital IQ to collect and analyze financial data supporting pharmacoeconomic consulting projects valued at over EUR 2M.
- Developed Python scripts integrating APIs from 15+ pharmaceutical databases, reducing manual data collection time by 65%.
- Analyzed financial statements of 10+ pharmaceutical companies to support strategic recommendations delivered to C-suite clients across 3 therapeutic areas.
- Translated complex pharmacoeconomic models into executive presentations for 4+ client engagements managed by senior consultants.

Independent Financial Analyst | Personal Projects

Remote | 2024 - 2025

- Built a three-statement DCF model with WACC sensitivity analysis for GoldMining Inc. (22.2M oz gold resources across 5 jurisdictions incl. Brazil); distributed findings to 500+ finance professionals on LinkedIn.
- Published equity research on Cameco and Lockheed Martin using Bloomberg Terminal, Capital IQ, and Refinitiv for comparable company analysis, generating average engagement of 50+ reactions per post.

Programme Participant | Santander X Explorer Programme

Spain (Remote) | Jan 2022 - May 2022

- Selected for Banco Santander's competitive entrepreneurship cohort; built a market-entry and expansion analysis for a Danish technology company, evaluating regulatory, competitive, and pricing factors, and presented findings to programme mentors.

EDUCATION

Bachelor of Economics — Universidad Carlos III de Madrid *Expected Jun 2027*

Relevant Coursework: Corporate Finance, Financial Analysis, Econometrics

ACHIEVEMENTS & RECOGNITION

- **Rafael del Pino Foundation Scholar (2015-2016)** - Selected for 2 consecutive years for a high-performance academic programme at one of Spain's most prestigious foundations for young talent.
- **2nd Place, CREA ECONOMIA SOCIAL 2021 (Universidade de Vigo)** - Category: Best Business Idea in Sports, Health and Wellness.
- Co-founded and operated an e-commerce venture at age 16, building the transaction platform in-house and processing 150+ orders - early evidence of the same build-and-ship instinct later applied to API automation at Weber.
